

**Nunthaporn Laoprasert, M.D.**

Dr. Nan Laoprasert joined Colorado Allergy and Asthma Centers in March 2003. She is certified by the American Board of Allergy and Immunology.

Dr. Laoprasert received her Doctor of Medicine from Chiang Mai University in Thailand, where she also served as an instructor in pediatrics following her pediatric residency. She then entered the U.S. and completed her residency at the University of Illinois in Chicago and The Mayo Clinic in Rochester, Minnesota. Dr. Laoprasert also completed fellowships in allergy and clinical immunology at The Mayo Clinic and spent another fellowship in allergy and clinical immunology at The Children's Hospital in Boston. Since completing her fellowships, Dr. Laoprasert has entered private practice and also served as a Clinical Professor at the Pikeville School of Osteopathic Medicine in Pikeville, Kentucky.

Dr. Laoprasert is committed to providing the highest standards of care to the patients in our Colorado community.

#### Immune Deficiency

### YOUR FIRST VISIT

Before your first visit you will be provided with a comprehensive medical history form. This will either be mailed to you or may be accessed on our web site at [www.ColoradoAllergy.com](http://www.ColoradoAllergy.com). You need to bring this completed to your initial visit.

Your first visit generally includes a thorough medical history, examination, and testing. Based on the evaluation the doctor will formulate a diagnosis and recommend treatment options. The treatment plan which you and your doctor have chosen will be outlined in detail. Education regarding your diagnosis and treatment plan is an important part of your initial visit.

A patient's symptoms can vary with age, season, environment, general health, diet, and even stress. Based on all of these factors, as well as any other relevant issues, we will work with you to design a treatment program which results in the most effective therapy for your medical problems. Our goal is to arrive at a treatment plan which allows you to take control of your asthma or allergy issues. At any time during your visit, please feel free to ask questions if there is something that you do not understand.

## OUR MISSION

**We are dedicated to the delivery of personalized, quality care by putting the patient first. We accomplish this by managing health, treating disease, and fostering education through research and community involvement.**

*Leaders in Allergy and Asthma Care  
for Over 35 Years*

## STAFF AND OFFICES

We are proud of the skilled, compassionate and efficient staff of Colorado Allergy & Asthma Centers. They greatly contribute to the responsiveness and quality of your care.

### Health Care Staff:

- Physician's Assistants (PAs): take histories, perform exams, prescribe and refill medications, and treat acute illness, all under the guidance of a physician.
- Nurses, Medical Assistants, Respiratory Therapists: assist with patient visits, administer allergy injections, immunizations and medical treatments, triage phone calls, refill and process prior authorizations for medications, perform skin testing.

### Office Staff:

- Front desk personnel: provide a professional and friendly atmosphere, schedule convenient appointments, manage telephone calls, and provide information for billing and insurance.
